emergency 9-1-1 plan

South Side = Even Address
 East Side = Even Address
 North Side = Odd Address
 West Side = Odd Address

The Perry County Addressing Grid was developed in the 1990's and started operating in August of 1998. The system increases as you travel South to North or West to East in the county. The southwest corner of the county would have the lowest address numbering. There is a possibility of 400 addresses in 1 mile or a new address every 13.2 feet. The planners decided on a quadrant system of dividing the county for the convenience of the emergency personnel. The county is divided north-south along State Route 154 and east-west along State Route 13/127. Roads located in the northwest quadrant have flower names; southwest quadrant, animal names; southeast quadrant, tree names; and northeast quadrant, bird names. Residential numbers are EVEN numbers on the East and South side of the road and residential numbers are ODD numbers on the West and North side of the road when traveling from the beginning of the road to end. Phone Perry County ETSB 618-357-8905 for more information.

Now Everyone Is Going To Want To Mow The Lawn.

Bush Hog's new mid-mount zero turn mower means everyone wants to mow the lawn. Because it performs so well. Because it is so reliable. Because it is so comfortable. It features quick maneuverability in tight places, compact size for easy trailering and storage, a pivoting front axle that follows ground contours, four engine choices and three deck choices, "quick foot" height adjustment from 1-1/2 to 5 inches, two-year limited warranty, and much more.

Come in today and we'll show you the rest.

History Facts

Perry County was originally part of the Virginia Territory and later part of the Northwestern Territory before it became the Perry County we know today. Perry County was named for Commodore Oliver Hazard Perry, a Commodore of the United States Navy, who won distinction as Commodore of the fleet in the Battle of Lake Erie, in 1813.

Perry County was created by an act of the legislature of the State of Illinois at its fifth session held in the State Capital building in Vandalia, beginning December 4, 1826 and ended February 19, 1827. The act was approved January 19, 1827 by Ninian Edwards, Governor.

The first appointed office holder in the county was Humphrey B. Jones. Mr. Jones was appointed Clerk of the Circuit Court on February 19, 1827 by T.W. Smith, Associate Judge of the Supreme Court. Mr. Jones' first responsibility was to call and hold an election in the County of Perry. Election was to elect three County Commissioners, a Sheriff and a Coroner.

Elected County Commissioners were John R. Hutchings, David H. Mead and Elijah Wells; Joseph Wells, Sheriff; and Amos Anderson, Coroner. All elected officials were sworn in June 4, 1827. Their first act was to officially appoint Humphrey B. Jones, County Clerk and Daniel Dry, County Treasurer. Governor Ninian Edwards then appointed Humphrey B. Jones as Recorder in Perry County. This completed the organization of the new county.

The County Commissioners appointed a three (3) man committee to select a site for a County Courthouse. The committee recommended that the best site would be the east half of the northwest quarter of Section 24 in Township 5, Range 3 containing 80 acres. The Board accepted the recommendation. The site of 80 acres was purchased for \$100.00 and 20 acres were to be surveyed in tracts and lots, streets and alleys with a public square. A public sale of lots was ordered and in early 1828, 24 lots were sold for \$1223.28 for an average of \$50.95 each. The original plat of Pinckneyville was executed July 21, 1829 and recorded in the Office of Records in Deed Record A on page 39 where by under this act of the legislature creating the County, it was decided the seat should be named Pinckneyville.

Written history indicates that Charles Glover built the first log cabin and David Baldridge the second. The first Courthouse was built on the southeast corner of Lot 32 in the Original Survey of Pinckneyville. This is where the Law Office of Hohlt, House, DeMoss and Johnson is located. This building was completed in September of 1828. Adjoining the courthouse was an enclosure for penning up stray horses, cows, hogs and anything caught running loose.

continued from previous page

The second Courthouse was completed in the fall of 1837. It was a two story building where the present Courthouse stands, taking two years for construction and a cost of \$1765.00. Several protests were heard due to the excessive cost to the taxpayer. The third Courthouse was completed December 3, 1850 at a cost of \$7500.00. The Courthouse was again remodeled and added to at a cost of \$9742.00. This was completed on April 10, 1887. The present Courthouse was added to and remodeled again in 1938. This time the cost was \$52,754.00. Adding all these figures together, the Courthouse in Perry County has only cost the local people \$71,761.00.

The first Perry County jail was built in 1833 and finished in 1834. It was 1871 before a larger jail was built and in June 1897 was replaced by the current, more modern jail.

Population in 1800 for Randolph County, which included Perry County, was said to be 1,102. By 1830, Perry alone had 1215 and in 1880 the figure had risen to 16,008. Today, Perry County's population approximates 21,000+ residents and in the recent economic transition remains flat.

Farming was the main occupation of the residents. In 1860, the records show there were 11,345 cattle. By 1882 this number dropped to 4,400.

The old log schoolhouses which used pokeberry ink, and goose quill pens, and charged a fee of \$2.00 a month, paid in mink skins. The teachers were paid \$30.00 a month. Most of the churches were organized in the 1850's and 1860's, building more permanent houses of worship in the 1870's and 1880's.

Locations in the county were once referred to by prairies, such as Paradise, Johnson's, Hutching's Round, Mud, Holt's, Four Mile, Six Mile, Nine Mile, Galum, Conant's, Eaton's, Lost, Brush, Burnt, and Grad Cote.

Some of the 'firsts' of the county included these: The first newspaper was the Perry County Times in 1856 with William Ewing a publisher. The first divorce was filed in 1839. The first Perry County School appears to have been southwest precinct in 1825, taught by Robert Clark. If you broke a law in these days the fine might be 12 to 50 cents.

land description info

One Town / Township

One Section (640 acres)

T

The U.S. Public Land System or the Rectangular Survey System, (shown at left), is a method of land description used to describe over half the land in the United States. All angles in this system are set using true directions, i.e. true north, south, east or west.

From these starting points, the county is divided into 6-mile by 6-mile square townships. The townships are then further divided into 36 sections, each being one mile square and containing 640 acres. The sections are numbered beginning in the northeast corner and ending in the southeast, moving section by section from right to left then left to right in an alternating sequence. The sections are then divided into rectangular pieces maintaining a common square.

Metes and Bounds is a method of describing land in which a parcel of land is identified by its size and shape, using a permanent marker or unchanging natural landmark as the starting point for measurements.

Note: Cloud Cartographics, Inc. does not research within the boundaries of city limits or rural subdivisions. Therefore, persons owning property within these areas will not be represented in this plat book.

PYRAMID STATE PARK

ILLINOIS DEPARTMENT OF NATURAL RESOURCES
Pyramid State Recreation Area
1562 Pyramid Park Rd. Pinckneyville, IL 62274
618.357.2574

For more information on state parks write to the Illinois Department of Natural Resources, Office of Public Services, One Natural Resources Way, Springfield, IL 62702-1271, or call (217) 782-7454.
For more information on tourism in Illinois, call the Illinois Department of Commerce and Community Affairs' Bureau of Tourism at 1-800-2Connect.
Telecommunication Device for Deaf and Hearing Impaired Natural Resources Information (217) 782-9175 for TDD only Relay Number 800-526-0844.

LOCATION: This site is located 6 miles south of Pinckneyville off state Highway 127, then 2 miles west on Pyatts Blacktop in Perry County, Illinois.

History In 1962, the state's first strip-mine reclamation law became effective. The most common method of reclamation in the 1930s was tree planting, but this was discouraging as the trees brought no quick economic return. A mature hardwood timber consisting of mostly White Oak and Hickory on the west edge of the park is an area about 20 acres which was not strip-mined. Several stands of conifers were planted years ago, and there is a timber cover of cottonwood, box elder and sycamore. Oak and hickory trees are increasing in number.

Wildlife Many species may be found in the area, including songbirds, deer, squirrels, beavers, rabbits, turkeys, bobcats, raccoons, possums, coyotes, weasels, minks, woodchucks and waterfowl.

Picnicking Picnic areas are numerous but small due to the terrain. Picnic tables and charcoal grills are available, and there is one picnic shelter. Pit toilets are located throughout the area.

Trails There are 16.5 miles of foot and horse trails and this includes Mountain bike riding. Future plans include increasing the mileage of the hiking, mountain bike and equestrian trail system to expand to the newly acquired Arch property.

Camping Tent and trailer camping are permitted at designated camping areas only. There are three Class C camping areas, Class D hike-in campsites, a small equestrian camp and a youth group camping area. Water and a trailer dump station are available near the site office. There are no electrical hookups in the camping areas.

Fishing Fishermen will find that largemouth bass and bluegill are the predominant species. Lost Lake (a hike-in lake) and some of the other lakes contain a hybrid of green sunfish/bluegill. There also are red ear and channel catfish in some of the lakes.

Boating Canoeing is popular because of the rough terrain, and boats with 10-hp motors or less are allowed. Boat launches are available at some of the larger lakes.

Hunting AVAILABLE GAME SPECIES:

Deer, Dove, Woodcock, Turkey, Rabbit, Fur bearers, Squirrel, Quail, Waterfowl

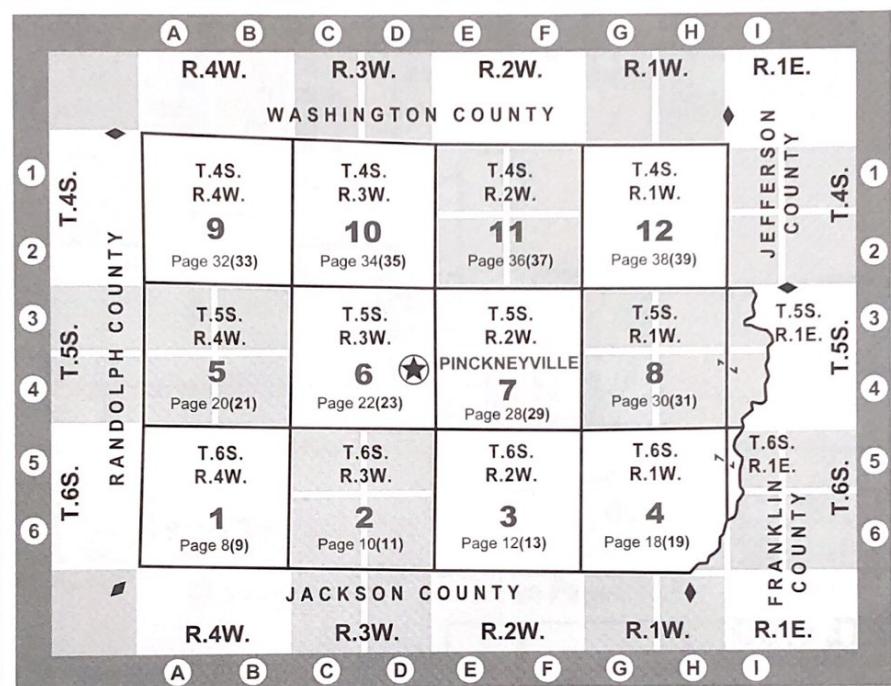

Waterfowl hunting is not permitted on the old original section of Pyramid, however, Waterfowl Hunting is allowed at the newly acquired Arch Mineral Property consisting of the "Galum" unit, "Captain" unit and the "Denmark" unit. In addition, deer hunting and upland game hunting will be offered on this area. Check for site specific information. This area is a managed quality hunting area which means you may take a buck deer with a minimum of 4 points on one side. Upland Game is by drawing, and a free upland game application must be submitted by mail to our Springfield office.

*Take only memories,
leave only footprints.*

road index

The road index is an alphabetical listing of all the named roads in the county. It corresponds to the Full County Highway Map on pages 40-41 of this plat book. Use the grid coordinates in the frame to find the location of the road you seek. If names are followed by an asterisk (*), they are numbered with that number on the map due to limited space. Those names can also be found in the Numbered Road Name Index.

ownership index

The Land Owner Index shows the name of the land owner, the page number and the section number he is in. For example: Michael Quigley...15...29 shows that he is on page 29, section 15. When a land owner is listed in the directory but cannot be found on the map, he is a small tract land owner, which means he owns less than 5 acres of land in the section listed. All small tract owners are designated by the quarter section. For example, if Michael Quigley was listed as 15NE...29, he would be located on page 29, section 15 in the northeast quarter (NE). NW, SE & SW refer to the northwest quarter, southeast quarter and southwest quarter, respectively. A land owner who is not listed in the index may be part of a subdivision, and only the name of the subdivision is listed. **NOTE: Cloud Cartographics, Inc. does not research within city limits or rural subdivisions. Landowners within these limits are not represented in this book.**
